*Director of Health Policy and Planning for the
Howard County Health Department*

October 22, 2008

4:00 - 6:00 p.m.

Frederick Memorial Hospital Classrooms

Join us to discuss the new Healthy Howard Access Plan, a first-of-its-kind program offering health care to uninsured, legal residents of Howard County. Participants pay \$50 or \$85 a month, depending on income, and receive primary care visits, low-cost prescriptions, mental health, urgent care and diagnostic services as well as health coaching and 'debt forgiveness' at Howard County General Hospital.

"It really tries to ensure access to essential care by using existing resources and emphasizing a theme of shared responsibility - including patients."

-- Karen Davis, President, Commonwealth Fund
