Update on COVID-19 Vaccine:

Current Phase: We are currently working on vaccinating people in Phase 1A, which includes health care workers, long term care residents and staff, and first responders.

Vaccine is currently available in limited amounts.

We will keep the Frederick County community informed as we're ready to vaccinate more groups and will share instructions when we have them. Updates will be shared through our [JIC updates](#), on [our website](#), and [Facebook](#).

Update for Healthcare providers in Frederick County: In an effort to further plan for Phase 1 of our COVID-19 vaccination campaign, we would like to gather some information about your practice to assist in our planning to support and protect the health system. We are learning new details about COVID-19 vaccine distribution daily, causing our plans to change often so it is crucial that we maintain clear lines of communication. Healthcare providers, please complete [this short survey](#) to assist our planning.

Healthcare providers should continue to participate in the regularly scheduled provider calls hosted by the Frederick County Health Department to receive updates. If a healthcare provider is not getting the updates about the provider calls, please email rwatkins@Frederickcountymd.gov with your specialty, practice name, and contact information to be added to our distribution list.
