  - Medication Management

# Mental Health Services during COVID

- March 16, 2020 - MHS face to face services were discontinued
- March 17, 2020 – MHS clinicians began providing treatment services to scheduled clients via telephone before telephone services were officially approved for reimbursement.
- March 18, 2020 – MHS clinicians began teleworking from their homes using their personal computers and phones until the technology plan was developed and equipment was purchased.
- MHS staff worked together with County IIT to develop a technology plan for continued telework and telehealth.
- Telehealth flexibilities have allowed clients access to mental health services via voice only or video while they are in a location of their choice which is convenient and safe for them.
- The reminder calls and the telehealth flexibilities have allowed MHS clinicians to meet their clients' increased mental health needs more consistently, during the COVID emergency.
- The COVID emergency has prompted problem-solving and innovation of the MHS mental health services delivery system to better serve mental health clients who are often faced with significant access challenges.
