### Update on Masks & Test Kits

#### Update on Free Masks and Test Kits:

All Frederick County Public Library branches currently have KN95 masks available during regular business hours. The county is working to distribute test kits and more masks to all branches in the next few days and details will be shared soon. The goal is to make masks and test kits easily accessible for all county residents, and this is a big step in that direction. Updates will be provided at <https://frederickcountymd.gov/CovidTest>.

#### Don't forget to report a positive result!

You can report positive test results either through the mobile app associated with your at-home test or through the Maryland COVID Positive At-Home Test Report Portal. Reporting positive results here will initiate the contact tracing process, which may be required to receive work or school excuse and release letters, which will help to keep others safe. Log in on the portal's home page to submit a report: <https://covidlink.maryland.gov/selfreport>. If you do not have login information, you may register to create an account.
