FOR IMMEDIATE RELEASE:

Frederick County Agency Updates for June 15, 2020

Frederick, MD – June 15, 2020

Health Department:

The Health Department is now reporting that 2298 (+25 in 24hrs) residents have tested positive for COVID-19 and 107 (+0 in 24hrs) people have confirmed COVID-19 as cause of death. For more statistics, please visit <http://FrederickCountyMD.gov/COVIDstats>.

As the County is now in Stage Two of the Maryland COVID-19 Recovery Plan, we would like to remind our residents to please continue to wear a face-covering while out in public, in addition to washing hands and maintain 6 feet distance between yourself and people outside your household.

According to CDC guidelines, face coverings are used to help protect others in case you're infected but don't have symptoms. COVID-19 still exists in our community and has the ability to spread and cause serious illness in people who are at high risk.

It's also important to remember that not everyone can wear a face covering because of health issues, and a person's health issues may not be noticeable to you. You can still help make sure these members of our community are safe by wearing your own face covering and staying 6 feet away. #LoveFrederick

Please remember to wash your fabric face covering or throw away your disposable face covering properly when you're finished with it. A Maryland FAQ on Face Coverings is available [here](#).

Thank you for continuing to work together as we fight the spread of COVID-19 in our community.
