FOR IMMEDIATE RELEASE:

MARCH 30, 2022

You Can Reduce Your Risk for Type 2 Diabetes

Diabetes Prevention Program to Launch April 13

FREDERICK, MD -- The Frederick County Health Department is accepting participants into their next “Prevent T2” diabetes prevention class. Those interested in making lifestyle changes to reduce their risk for type 2 diabetes are invited to pre-register by calling 301-835-9205. Individuals who qualify will receive a link to participate in the online orientation scheduled for April 13, 2022 at 5:30 pm. Thereafter, classes will take place in person at the Health Department, contingent upon the County fully re-opening.

The [PreventT2 program](#) utilizes a trained lifestyle coach to guide groups of participants in the development of skills that will enable them to make lasting changes such as losing a modest amount of weight. Participants learn how to eat healthy more often, add physical activity to their routine, manage stress, and stay motivated. Together, participants celebrate their successes and find ways to overcome obstacles.

WHAT: PreventT2 is part of the National Diabetes Prevention Program, led by the CDC. PreventT2 is based on research which showed that individuals with prediabetes can reduce their risk for developing type 2 diabetes by 58% by losing 5 to 7 percent of their body weight.

PreventT2 groups meet for a year — weekly for approximately 4 months then once or twice a month thereafter to maintain healthy lifestyle changes.

WHO: Any adult who is diagnosed with prediabetes or is at risk for type 2 diabetes. Unsure if you're at risk? Take this [risk test](#) or complete a screening by calling 301-835-9205.

WHERE: Frederick County Health Department, 350 Montevue Lane, Frederick, MD.

WHEN: Wednesdays, 5:30-6:45 pm

- Online Orientation- April 13, 2022 at 5:30 pm- those who pre-register will receive a link to participate in orientation prior to the first class (required)
- First Class- April 20, 2022, 5:30 - 6:45 pm at the Health Department (contingent upon the County fully re-opening)

WHY: Prediabetes is a serious condition affecting more than 1 out of 3 American adults. One of the risk factors for type 2 diabetes is being overweight. According to the most recent data available, nearly two thirds of adults in Frederick County are classified as overweight or obese.¹

Space is limited. To reserve your space and determine eligibility, contact Angela Blair at 301-835-9205 or ablair@FrederickCountyMD.gov.

The PreventT2 program is offered at no cost by the Frederick County Health Department. For additional information about the program, visit <http://health.frederickcountymd.gov/PreventT2>.
